PRODUCT DESCRIPTION

Stain Prep is a penetrating concrete cleaner and renovator that quickly dissolves lime deposits, scale, rust, permanent market, mortar, algae and mud stains from interior and exterior concrete surfaces, tile, brick, and even glass and aluminum frames without the dangers of raw muratic acid.

Stain Prep contains no hydrofluoric acid, ozone depleting solvents or heavy toxic metals or chromates.

BENEFITS

- **The safe replacement for Muratic acid:** **Stain Prep** produces no harsh or irritating fumes, even in interior areas where raw Muratic acid produces choking and corrosive fumes.
- **Will not burn concrete:** **Stain Prep** should be used full strength, but can be used 50/50 with water on already porous concrete with mild stains.
- **Fast Action:** **Stain Prep** works fast and efficiently with deep penetrating action that lifts off the stains with a minimum of effort and no excess product wasted.
- **Economical:** Because it is a strong, surface-active penetrant rather than a harsh strong acid, **Stain Prep** does the job faster, with less labor and less product. You save all around.
- **Will not attack most metals:** Most of the metal encountered on the job will be either steel or aluminum. **Stain Prep** is highly inhibited against attack on these metals. It will brighten copper and brass, but will not corrode them if washed off. It should not be used on magnesium, galvanized metal or stainless steel. Test plastic laminates before using **Stain Prep** on them.

IMPORTANT NOTICE:

These products are sold subject only to the expressed warranties contained herein. Additional warranties, expressed or implied, and any warranty of merchantability is hereby excluded. Buyer agrees that seller assumes no liability for consequential damages of any kind, which result from the use or misuse of the merchandise sold hereunder. In the event that the buyer proves that any goods received do not conform to the specifications agreed to between the parties or if the buyer proves that such good were defectively manufactured, the buyer's remedies shall be limited to either the return of the good and repayment of the purchase price or replacement of the nonconforming good at the option of the seller. Such remedy being exclusive of all others and the sole remedy available to the buyer, hereby expressly waives any claim to additional damages.

APPLICATION

- 1) Plastic sprayers and buckets are recommended for application. Do not use Nylon brushes. For safety, always use goggles and protective gloves.
- 2) Apply **Stain Prep** by brush, spraying or dipping. For spraying, use a very coarse spray pattern to avoid inhaling the mist and causing overspray.
- 3) Allow it to soak for several minutes. Agitate heavy soils or stains with a stiff broom, then rinse thoroughly with water. Repeat application may be required on some stains.

PROPERTIES

Type: Penetrating acidic detergent renovator.

Color: Blue

Odor: Pleasant

Toxicity: Low – Do not take internally

VOC's: Low

Flammability: Non-flammable

Composition: Biodegradable surfactants, inhibitors and acidic boosters
