---

**PRODUCT DESCRIPTION**

**Neutralizer** is a water dilutable, mildly alkaline solution that neutralizes any residual acid on the floor after applying an acid stain. Neutralizer restores the PH balance to the floor.

**BENEFITS**

- **Non-flammable and non-toxic:** Neutralizer is very safe to use.
- **Economical:** Dilution up to 1:10 makes Neutralizer very affordable.
- Can be used on both interior and exterior concrete surfaces.

**HOW TO USE**

- 1) Dilute Neutralizer one part to 5 parts water.
- 2) Spray on to thoroughly wet the entire area. Let work for one minute and rinse off.
- 3) Wet vac the area and let dry for at least 24 hours before applying sealer.

**PROPERTIES**

**Type:** Non-flammable, concentrated liquid neutralizing agent

**Color:** Colorless

**Odor:** Odorless

**Toxicity:** Non-toxic

**Flammability:** Non-flammable

**Coverage:** Depends on porosity, dilution, texture, application method and prior sealer application. Excess buildup should be avoided.

**FIRST AID**

IF INGESTED: Drink two glasses of water and get medical help. Contains bicarbonates

IF IN EYES: Flush thoroughly with water for 15 minutes, lifting both eyelids. If irritation persists, get medical help.

IF ON SKIN: Rinse off thoroughly with water. If irritation develops, get medical help. Wash clothing before reuse.
